

## **WHAT IS USSSA BASEBALL?**

USSSA Baseball is the FASTEST growing Amateur Baseball Association in the World! What do 50,000 + teams know that you don't?

With USSSA, every player on every team is a winner because of our four (4) classifications of competition. USSSA is the ONLY national organization in the world to offer this four tier system that allows players of all skill levels to compete against like players in leagues, local and state tournaments, as well as national play. USSSA believes the overall development of all players can be greatly enhanced by the experience and fun of tournament play on the local, state, and national level.

Year after year, USSSA experiences rapid growth throughout the program and it is reflected in our team registrations and World Series participation. Last year, participation in USSSA World Series play was 4 to 1 over any other brand of baseball. This translates to more teams playing, better competition, and a better overall World Series experience. In 2009, USSSA had over 2,100 teams playing in World Series events.
